

Leadtime Trends

Greater leadtime stability across the product groups, with the exception of wirewound resistors where the leadtime has extended slightly.

Capacitors

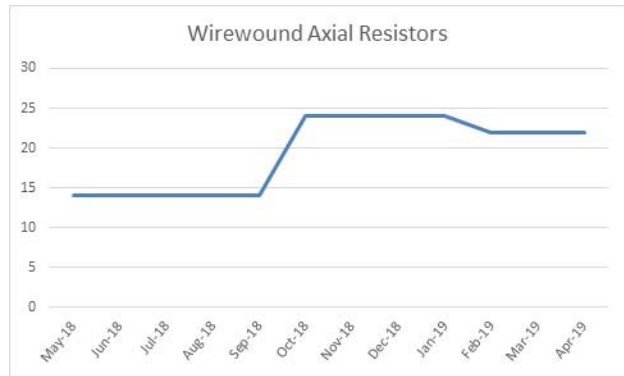

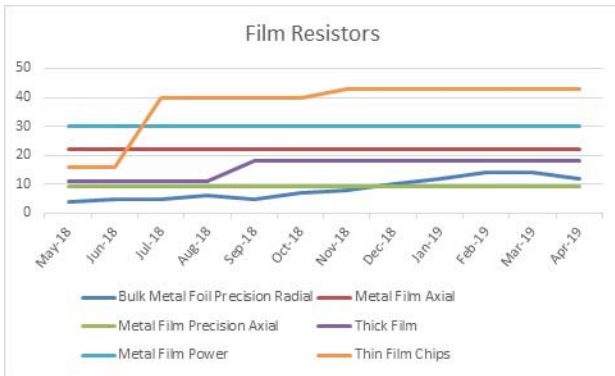

Charcroft: Challenge Accepted

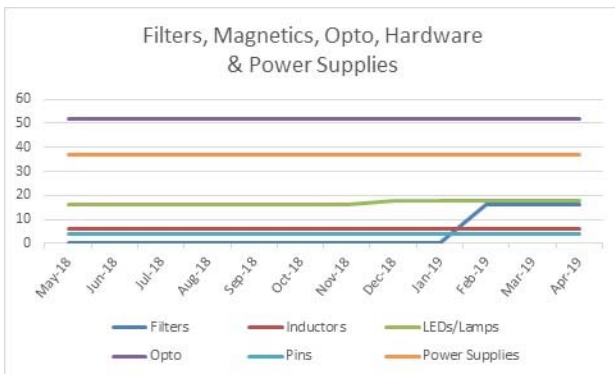

Charcroft Purchasing Intelligence 1905i

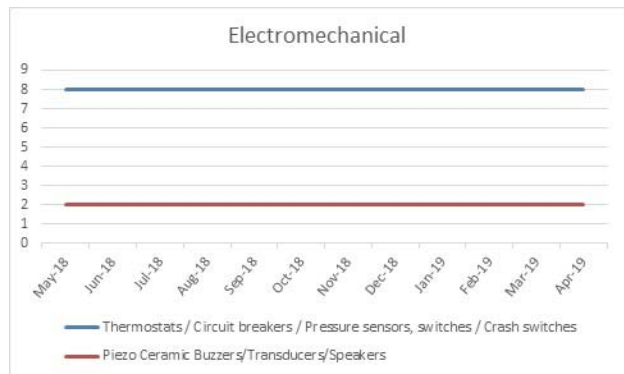

Resistors

Filters, Magnetics, Opto, Power Supplies

Electromechanical

Metal Price Trends

Steady increases in the price of palladium, copper and tantalum concentrate with a recent short spike in the cost of lead with short-term price drops for tin and nickel. *All graphs are guidelines only.*

Base Metals Price Trends

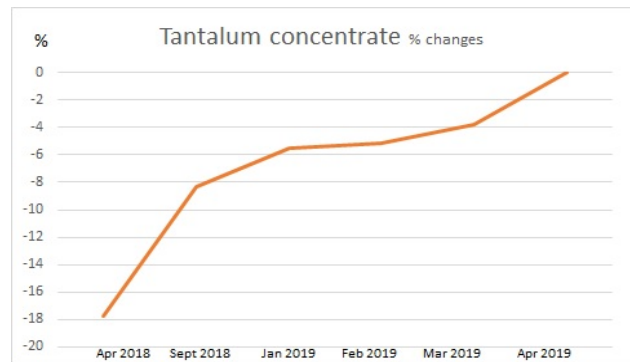

Capacitors: Aluminium Resistors: Trimmers, Networks

Capacitors: Mica Resistors: All Non-RoHS

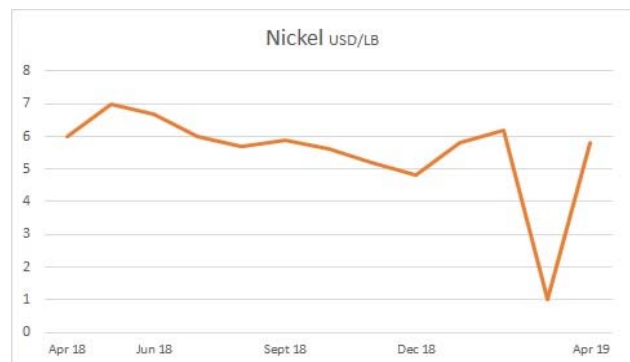

Capacitors: Film, Mica Resistors: Carbon, Metal film, Wirewound

Capacitors: Tantalum

Capacitors: Mica

Capacitors: Surface-mount

Precious Metals Price Trends

Capacitors: Metal clad, Mica Resistors: Networks

Capacitors: Ceramic Resistors: Surface-mount

Last Time Buys, End of Life and Parts Change Notices

Last Time Buys (LTBs) for TT Electronics resistors

- June 30th LTB for fourteen series of resistors: CHP, CGH, CGX, CHP1X, CMH, DPR3, HSC, HSF, MCHP, MM, MRC, PPS, SMC, ZCHP | [View PCN](#)
- October 8th LTB with shipping before 8th April 2020 for PWRG power resistors with metal glaze resistive element | [View PCN](#)

End of Life (EOL) for TT Electronics resistors & potentiometers

- 6134, 6137, 6138 series precision potentiometers available while supplies last | [View PCN](#)
- CRT series of trimmable chip resistors are end of life with no LTB | [View PCN](#)
- DSPR1KL.5 sensors are made end of life with no LTB | [View PCN](#)

Parts Change Notices (PCNs)

- Exxelia withdraws CECC approval from CTC/CTS capacitors | [View PCN](#)
- TT Electronics is replacing the INF250 LED with the EWC250 from April 1st | [View PCN](#)
- TT Electronics changes reel size for Pb-free LRC, LRZ, LRF3W, SCW, PWC & HTC resistors | [View PCN](#)

For more information on LTBs, EOLs and PCNs email: request@charcroft.com
